

FOREWORD

Nearly 20 years ago, Alfa Tools introduced their 1/4" Hex Shank Quick Change Twist Drills. Ever since, there have been innovative additions to the line. Each tool was designed to meet the growing need for the "Easier & Faster" work ethic, incorporating the MONOLOCK® credo – quick change tooling, with positive chucking. The era of chuck keys, tool slippage and lost time has come to an end!

Alfa Tools is pleased to publish this first edition of the MONOLOCK® catalog featuring our Quick Change tooling system. The core of the system is the range of quick change chucks, extensions and adaptors, which accommodate 1/4", 5/16", 3/8", and 7/16" hex shank tooling. The program covers all facets of work on metal, wood and concrete.

Beat the clock with MONOLOCK®

INDEX

Quick Change Chucks/Extensions	1-2	Electrician's Auger Bits	26
Drill Adaptor Collets	3	Short Auger Bits	27
All-Purpose Tool Kit	4	Forstner Bits	28-29
